Déodorant Parfumé - Comme une Évidence Homme

Prix indicatif : **12,30 €**

Prix indicatif au 100 ml/100 g : **12,30 €**

Ingredients:

Alcohol denat., Aqua, Parfum, Polyglyceryl-3 caprylate, Limonene, Nitrogen, Oxygen.

Fortunately, Trivani has a safe and highly effective alternative to potentially harmful brands of deodorant. Our Deodorant Mist includes a variety of safe, active ingredients. Why did we choose a deodorant product over an antiperspirant?

Because we believe that one of the body's best detox systems—your skin—should not be plugged; rather, it should be helped to function without creating embarrassing odor.

Features & Benefits

-Complies with Trivani's Do No Harm Philosophy[®]; avoids any potentially harmful ingredients that may be found in mainstream deodorants and antiperspirants, including **parabens, triclosan, propylene glycol, alcohol, aluminum compounds, and ethoxylated surfactants** (i.e. anything with PEG in the name or ending with the suffix -eth) that have not been certified as dioxane-free.

-Polyglyceryl-3 Caprylate, a plant-based antibacterial substance, provides gentle, on-demand protection for 24 hours.

Ingredients: Purified Water (Aqua), Polyglyceryl-3 Caprylate, Butylene Glycol, Caprylyl Glycol, Sodium Usnate, Citronellyl Methylcrotonate, Trehalose, Vetikol.
